I'm not robot!

# Chống trộm Khóa & Định vị

Kaspersky antivirus код активации 2021. Kaspersky скачать бесплатно для windows 10. Как скачать касперский антивирус 2021. Скачать касперский антивирус с ключом. Kaspersky крик.

11.86.4.8208 Jul 24th, 2022 11.85.4.8086 Jul 9th, 2022 11.85.4.7952 Jun 24th, 2022 11.84.4.7744 May 21st, 2022 11.84.4.7704 May 1st, 2022 11.83.4.7435 Apr 9th, 2022 If you've installed Kaspersky Internet Security and Kaspersky VPN on your mobile devices, you can transfer the VPN functionality to your Kaspersky Internet Security app. In this case, VPN will only be available through Kaspersky Internet Security. However, you can transfer VPN functionality back following our guide. Download APKName Kaspersky Antivirus & SecurityPackage com.kms.freeVersion 11.13.4.808Size 38.08 MBInstalls 10,000,000+ downloadsDeveloped By Kaspersky Lab Softonic reviewKaspersky Mobile Security Lite is designed to defend your phone from viruses, theft, and unsolicited calls. It's a free security suite whose quality is guaranteed by Kaspersky's pedigree, a giant among antivirus. All you have to do to be protected is download the app and register. Protection Kaspersky Mobile Security Lite scans newly installed applications for viruses using Kaspersky cloud consulting. This system means that it is testing apps being installed on millions of devices daily - giving them a huge sample to draw from. By extension this also mean that it can share its findings with users, so even unknown threats can be stopped quickly. You can also share Kaspersky's findings through social media to alert unprotected friends of possible threats. For more physical threats, Kaspersky Mobile Security also offers an anti-theft function. By setting a security code number your phone can be locked, erased, and located remotely from any computer. Also, if you aren't sure your phone is stolen and suspect you have just misplaced it, then you can activate Kaspersky's alarm mode which will ring even when your phone is on silent. Privacy Given the increases in unwanted calls in recent years, Kaspersky Mobile Security also has a call and message filter for privacy lovers - a convenient way to block spam (and anyone who happens to annoy you). While this is handy you do have to register your own allowed (white-list) and blocked (blacklist) numbers. This makes it feel somewhat basic when compared to an app like Truecaller, which screens incoming numbers against its spam number database to prevent them ever reaching you. Peace of mind For most people who just want to feel a bit more secure using their mobile device, the lite version of Kaspersky Mobile Security (reviewed) is a perfect solution. If you have more specific needs, however, and want real-time virus and phishing protection for all of your downloads and messages, then there is a free 30 day trial of the premium version available. Cloud system keeps anti-virus up to date Good anti-theft options Privacy filter Great UI Internet connection required Kaspersky Internet Security for Android is an antivirus solution to help protect phones and tablets - that can be even more vulnerable than your computer - as well as your private. Kaspersky (Package Name: com.kms.free) is developed by Kaspersky Lab Switzerland and the latest version of Kaspersky Security & VPN 11.86.4.8208 was updated on July 21, 2022. Kaspersky Security & VPN is in the category of Tools with the feature Multiple languages and Web filter, etc. You can check all apps from the developer of Kaspersky Security & VPN and find 200 alternative apps to Kaspersky Security & VPN on Android. Kaspersky Security & VPN is listed in Top 10 Android Antivirus Apps. Currently this app is for free. This app can be downloaded on Android 5.0+ on APKFab or Google Play. All APK/XAPK files on APKFab.com are original and 100% safe with fast download. Free antivirus and phone security for Android™ devices from Kaspersky Kaspersky Security & VPN for Android is a FREE-to-download antivirus solution that helps secure your phones and tablets - which can be even more vulnerable than computers - from online dangers. It includes premium apps & features designed to work on Android devices. From security essentials like anti-phishing to extended privacy protection tools - Password Manager, VPN, Data Leak Checker as well as increasing the speed and performance features like unused apps cleanup & battery saver App features Antivirus protection - acts as a virus cleaner and scanner, automatically blocking malware, viruses, spyware and more on your phones & tablets Background check - scans on-demand and in real-time\* for viruses, spyware, ransomware and Trojans Where Is My Device - protects your personal information from thieves, allowing you to wipe it from your device remotely and helps to find your phone when lost App Lock - lets you protect individual apps, such as banking apps and dating apps, with PIN security Anti-Phishing - warns about dangerous phishing links in your emails, IMs, texts, and on websites Safe Browsing - blocks dangerous links, downloads & websites when you go online Safe Messaging - blocks malicious URLs in SMS text messages and instant chats Password management - allows you to securely store, manage & autofill your passwords Kaspersky VPN - encrypts your Wi-Fi traffic, comes with an IP location changer for private Internet access, and lets you access global content in a private browser via super-fast connections Data Leak Checker - warns you if your account data is leaked online & advises you how to avoid leaks Social Privacy - helps you edit privacy settings in Google and Facebook. Which means it's super-easy for you to disable location tracking, prevent targeted ads, and lots more Devices on My Network - notifies you when a new device joins your Wi-Fi network, so you can disconnect unauthorized devices Features in detail Antivirus protection When our defense technologies detect malware, spyware or other threats, Kaspersky Security & VPN for Android acts as a virus cleaner. This means it repels viruses, and blocks dangerous apps, links, downloads and files. Background scan Our Android antivirus comes with a powerful background scan that checks apps, files and more for threats such as malware, ransomware and phishing. So you can be certain you always benefit from outstanding protection. Kaspersky VPN Our VPN feature encrypts all the data you send and receive online, such as emails, chats, video calls, banking transactions and shopping payments. Plus it masks your IP address to let you search and browse completely privately. And lets you access global content and streaming services from anywhere! Data Leak Checker If hackers know your email addresses, they could break into your Netflix, Facebook or other accounts. This tool lets you check if your email addresses or other personal information has been leaked from your accounts, and gives you advice on how to prevent private data being compromised. Functionality is available for paid subscribers only Unlimited VPN is available for paid subscribers only, starting with «Plus» plan Automatic and unlimited account check & Devices on My Network are available for paid subscribers only, starting with «Plus» plan (available in a limited number of countries). This functionality is also available with Kaspersky Security Cloud - Personal & Kaspersky Security Cloud - Family licenses. This app uses the Device Administrator permission and Accessibility services. Due to legal restrictions on using a virtual private network (VPN), Kaspersky Secure Connection cannot be installed in Belarus, China, Saudi Arabia, Iran, Oman, Pakistan and Qatar. Limitations apply: Save time with brand new login options! You can now sign in to Kaspersky on any device with your Google or Facebook accounts. Which means two new speedy and convenient ways to access the service! Read More antivirus apps Battery-Saver Apps Tools Multiple languages Web filter Package name: com.kms.free Version: 11.76.4.6357 (30428) File size: 56 MB Updated: October 14, 2021 Minimum Android version: Android 4.4 (Kitkat, API 19) Screen DPI: nodpi Architecture: armeabi-v7a MD5: 0e3079349d60e59e5caab6c98a910fc SHA1: fa14aff1ada527ed22d248f4e9544177c410eef Overall stability improvements. Free antivirus and phone security solution for Android™ devices by Kaspersky Lab Kaspersky Internet Security for Android is a FREE-to-download antivirus solution to help keep phones and tablets - that can be even more vulnerable than your computer - as well as your private information secure from online dangers. Our new App Lock feature also protects personal data from prying eyes. Background check - scans for viruses, spyware and Trojans Antivirus protection - acts as a virus cleaner & automatically blocks malware from phones & tablets App Lock - lets you add a secret code to access your private messages, photos and more Find my phone - tracks & finds your Android phone or tablet if it's lost or stolen Anti-Theft - protects vulnerable personal information from prying eyes Anti-Phishing - keeps your financial information secure while shopping & banking online Call blocker - blacklists unwanted phone calls and text/spam messages Web filter - filters out dangerous links & sites while surfing the Web Background check Our antivirus for Android scans downloaded apps for malware, spyware and other infections using a background check to give you profound virus protection & keep your devices secure against digital threats. Antivirus protection If the background check detects malware, Kaspersky Internet Security for Android acts as a virus cleaner by blocking viruses and dangerous apps, links and files. App Lock Our App Lock feature protects private communication & financials with a secret code to access confidential apps you have selected and hides sensitive data (messages, photos, files and more) on your device from wrong hands.\* Find my phone Kaspersky Internet Security for Android helps you track and find your lost phone or tablet. You can turn on an alarm on the device remotely, lock and locate your phone, wipe personal information (messages, photos and videos) and take a mugshot of the person using your device if it's stolen. Vulnerable personal data, privacy protection Our solution for Android helps protect privacy and defend against identity theft. Hide your contacts, phone calls and text messages from prying eyes, protect vulnerable personal information and control what others can see if they pick up your device.\* Unwanted calls and SMS blocking It includes a tool to blacklist unwanted calls, messages and spam on Android devices. You can set filtering rules for incoming calls and SMS texts, add unsolicited contacts to a blacklist, block SMS texts with ads and detect spam from non-numeric numbers. Blocking dangerous sites and links during Web surfing Our powerful antivirus for Android protects your device from Internet threats while you are surfing the Web - by blocking phishing and other dangerous links.\* That's why our virus cleaner grants you profound virus protection & helps keep your vulnerable financial data and privacy secure while making purchases online. Support of Android Wear to control your security status Using voice control you can activate the 'Find my phone' function, run a scan for viruses, spyware, malware and other threats, get protection status updates.\* Functionality is available only in Premium version. This app uses the Device Administrator permission and Accessibility services.
